👤 PROFILE

I am fan of functional programming and js world with more than 2 years of experience in different international projects. Also, i try to apply the SOLID, DRY, KISS and "code complete" principles, My programming style changes between the language but i can use POO, functional and imperative.

The architecture and workflows that i used in the past are this:

Monolith, MVC, Micro services, Event-driven programming,.

As a person i consider myself curious and i always i'm looking to improve myself as a developer and also as a person. I think that i'm very patient and empathic, I can manage stressful situations and for last but not least i enjoy teach people.

📁 EMPLOYMENT HISTORY

Junior Full stack Developer, Palma

April 2019 — July 2020

During this period of time i have been worked in two projects.

While 10 months i have been working in the rent cars sector doing tasks like:

- New Layaout with Angular 2+
- Backend tasks with Spring Boot. E.g create new endpoints.
- Frontend tasks as new features with Angular 2+

For 5 months i had worked in the Talaia project. This project is about to projects management. Doing several things like, new endpoints in the api, optimization, fix bugs, excel exportations using the following technologies.

-JEE, JSP , JAVA, Hibernate, Vue, AngularJS

Wozzo Full Stack developer , Palma

July 2020 — Present

In this period of time i have been working in Wozzo as a fullstack developer creating some web and mobile apps. My stack was **MongoDB, Express, Nodejs, GraphQL, React** and **React Native**.
